EntryProx™ Reader
Stand-Alone, Single-Door Proximity Reader • 4045

- Ideal for Unique Applications - Proximity access control for small installations or remote locations.
- Trouble-Free Keypad Input - Extra secure keypad enables PIN entry or programming.
- Remote Monitoring - Configurable to be used in conjunction with an on-line system.

ACCESS independence.

Key Features
- Faster Programming - Batch load up to 2,000 HID cards or keytags with a single keypad command sequence.
- Efficient Badge Administration - Block Delete allows deletion of cards/keytags by user location.
- PDA Compatibility for Increased Reporting Flexibility - Download transactions or card database to Palm® PDA.

HID’s EntryProx stand-alone reader truly stands alone in what it delivers. Compatible with all HID proximity cards and keytags, EntryProx provides single-door proximity access control and is ideal for unique applications. The reader, designed to be weather- and vandal-resistant, can be mounted indoors or outdoors up to 10 feet away from the control unit using the detachable antenna module. The versatile, attractive unit is easily modified to become an on-line reader by switching to Wiegand output mode, allowing it to connect to any OEM controller and provide card and PIN output.

The ADA-compliant 12-position keypad features large white-on-black numbers, enabling PIN entry or programming, with optional audio feedback and a raised dot on the 5 key. For extra security, EntryProx’s keypad incorporates the “invalid PIN” lockout feature, preventing unauthorized trial-and-error PIN code entry.

The reader also features faster programming, enabling end-users to batch load up to 2,000 HID cards or keytags, in any format up to 37 bits, by entering a single keypad command sequence. A Block Delete feature allows for efficient badge administration by deleting a sequential range of cards/keytags from the EntryProx by user location.

HID has considered all applications by enabling PDA-compatibility for increased reporting flexibility; users can download transactions or card database to Palm® PDAs via an infrared link (software is available as a free download from the HID website).

Customers can select the HID EntryProx Reader with confidence because HID offers a lifetime product warranty and global technical support.
## Specifications

### Monitor Inputs
- Door Position - N.O. dry contact
- Request to Exit - N.O. dry contact
- *Depending on local installation conditions.

### Sounder
- 4000Hz, defeatable

### Relay Outputs
- Strike Relay - Form C, switches up to 1A @ 30 VDC
- Aux Relay - Form C, switches up to 1A @ 30 VDC

### LEDs
- Bi-Color (Red/Green), Amber, Infrared (use with optional Palm PDA)

### Cable Distance
- Remote Reader Module - 10 feet (2 m)
- Wiegand Interface - 500 feet (152 m)
- Recommended cable is ALPHA 1295C (22AWG) 5-conductor stranded with overall shield or equivalent

### Read Ranges:

<table>
<thead>
<tr>

### Mounting
- Mounts on US or EU single gang box, wall surface, or on glass with included adhesive pads
  - 5.25" x 2.75" x 1.625" (133.33 cm x 6.98 cm x 4.1 cm)

### Power Supply / Current Requirements
- 10 - 15VDC, reverse voltage protected
- Linear supply recommended, 150 mA @ 13 VDC

### Operating Temperature
- -31°F to 150°F (-35° to 66°C)

### Operating Humidity
- 5% to 95% relative humidity non-condensing

### Transmit Frequency
- 125 kHz

### Certifications
- UL 294, FCC Certification, United States
- Canada Certification, CE Mark, Europe
- GS Mark by TUV Rheinland, Australia C-Tick Mark
- New Zealand, Taiwan, China

### Base Part Number
- EntryProx 4045CGNL0
- EntryProx plus 10 Keytags 4045CGKU10
- EntryProx plus 20 ProxCard II 4045CGCU10

### Options
- Color - Gray
- Various options are user programmable – not ordered by model.
  - Accessories
  - Security Tool
  - 04-0001-03

### Warranty
- Warranted against defects in materials and workmanship for life (See complete warranty policy for details).
